

INTERESTING GOLF PROGRAM OUTLINED FOR THIS MONTH

The Greens Committee of the Country Club has projected the golf program for May, and from the events scheduled it promises to be exceedingly interesting.

On May 8 will occur the preliminary round for the spring championship, an eighteen hole medal score play, best sixteen scores to qualify. As soon as the cards are in the men will be paired, and the rest of the tournament will be match play. That will have to be played off before Sunday, May 22, and the final for the championship on the same date.

On May 15th they will play for the Mance cup in the usual way. Then on May 22 there will be an invitation

match for dinner. Each man is to pick his opponent and the losers will arrange to banquet the winners on the same night, making another one of the club's famous social sessions.

On May 29 they will play for the Powell cup. Last Sunday they had a match with the Douglas County club at Warren, four-half matches, two-men teams. The locals put it over the Demonstown winners by a score of 3 to 2. The winning teams were:

Sherman and Douglas; Harrington and Allen; Notman and Curry; the winning Douglas teams were French and Drake and Cuthbert and Smith.

NO QUORUM FOR SANE FOURTH IDEA

Not enough city fathers turned out last night to form a quorum so the city council could not transact the regular routine business. Mayor Neale and Alderman Shattuck were about the only ones on deck. An adjournment was taken until Friday evening at 8 o'clock.

There was nothing but routine business on hand with the exception of W. A. Wolf, who now holds the garage contract, was to ask for a renewal of his lease upon the city cut.

James Perley, acting as a committee of one representing the board of trade, had a petition to present, signed by nearly every business man in town, asking the council to pass an ordinance prohibiting the sale of explosives, namely fireworks, firecrackers and dynamite cartridges such as came in vogue July 4th, between June 10 and July 10.

This is done in the interests of a safe and sane Fourth during the coming celebration. While no such steps were taken last year, it has been determined that one cannot be too careful in safeguarding the lives and property of the people, so in view of the coming celebration the measure was resolved upon.

It will be passed upon Friday evening.

SATURDAY WILL SEE GAME AT WARREN

With the departure of the Bisbee team for Douglas next Saturday, there's no sign that there won't be plenty doing in baseball. The Bankers and C. & A. teams have arranged for a game at Warren, to be called at 2:30 o'clock Saturday afternoon.

Sunday afternoon at the same hour the Shattuck mine team will go against the Copper Queen store boys for the third time. Each team has won a game and now it's up to them to see who are the best players.

The winners of these two games will probably arrange to play two weeks from Sunday for a side bet.

CHINESE DRAGON AT TUCSON FETE

PHOENIX, May 3.—That the Chinese residents of Tucson are doing all in their power to make the big Cinco de Mayo celebration an unqualified success is the news contained in a letter received this morning by Sun Hi Wah, head of the Phoenix Chinese colony, from Wah Dick, a leading Chinese merchant in Tucson.

Wah Dick's letter looked like the work of a school kid on a rampage with a paint brush, but Sun Hi Wah interpreted it to mean that the Tucson Chinese, at great expense, have sent a committee of three of their members to San Francisco for the purpose of securing the great Chinese dragon to be used in the big parade in Tucson next month during the celebration.

It was necessary for the Chinese of Tucson to raise several thousand dollars for this purpose, part to defray the expenses of their committee, who are now in San Francisco, and the balance to be paid for the use of the dragon. It is also necessary for them to post nearly \$3000 with the head men of the Phoenix Chinese as a guarantee of the safe return of the dragon after it is used in the Tucson parade.

The dragon was used twice in the festival parades in Los Angeles and has been seen by a number of Phoenix people who were in the Ange City at the time. The dragon is a block in length, and it is necessary for several hundred men to get beneath it in order to carry it along in parade.

This dragon has always been a great feature of the festival parades in Los Angeles and San Francisco, and that the Tucson Chinese should be willing to raise the large sum of money necessary to secure it for the Cinco de Mayo celebration shows enterprise on their part.

The front cover of the May Sports Affair shows a husky looking fisherman on his way to good bass water. The initial article, by a veteran Texas sportsman, describes in Mr. Balne's characteristic style the outwitting of a wily old gobbler. Wintering on the Mackenzie is a capital paper on life and sport in the far North; which is followed by a ranting trip up the Nile into Nubia. Of especial interest are: The Tax of War (an incident of the battle of Lookout Mountain); Duck Shooting in Michigan; Trout Fishing in Vermont; Weakfishing in the Jersey Coast; Salmon Fishing in Puget Sound; Sport in Panama; Some Missouri Days Afield; and a strong article by C. B. Whitford on the Weakness of Recent Dog Shows.

Your newsdealer can supply you; if not, send 15 cts. to Sports Affair, 258 Dearborn street, Chicago, Ill.

S. W. RAILROAD ARRANGES FOR LOWER RATES

(Continued From Page 1.)

City is only 25 cents. It is proposed to divert the freight from this point over the Trinity and Brazos railroad to Port Worth, from there to Tucuman over the Rock Island and from Tucuman to El Paso over the Southwestern. If the Arizona merchants take advantage of the proposition, the freight will be shipped from El Paso to the Territory over the Southwestern.

When the freight is taken from the steamers at Texas City, it is rebilled by a forwarding agent there, on the authority of merchants whose goods are to be handled, for which a charge of 1 per cent per hundred pounds is made by the transfer agent.

If the new rate is extended to Arizona merchants the Pomeroy Transfer company at El Paso will rebill the freight for Arizona points. The rate from New York to Douglas would be 2.95 and from New York to El Paso, \$2.38, which would be a large saving in each case. In case the Arizona merchants do not have a whole car of freight, it may be shipped to El Paso at the low rate on car lots, and rebilled here at the regular rate.

This proposed system of getting freight into the southwest on cheaper rates is made possible by the fact that the Rock Island and El Paso and Southwestern line have entered into the rating whereby the same tariffs apply over those lines through Oklahoma and New Mexico as would apply did the tracks include only territory of the one state of Texas. The classification in Texas as established by the railway commission permits the making up of carloads from Galveston or Texas City to El Paso by the making of freight.

The Texas Steamship company has seven ships plying between New York and Texas City, with an eight day run between port and port. It faster service is desired, the Morgan or the Mallory lines may be used, whose ships ply between New York and Galveston. The Morgan line ships make the run in five days and the company cooks three ships a week at Galveston; the Mallory line ships make the run in six days and this company docks two boats a week at Galveston.

The rate on the Morgan and Mallory lines, however, is 50c from New York to Galveston and the charge for handling and forwarding at Galveston is five cents per hundred, making the rate over these lines from New York to El Paso \$3.19 as against 30c if handled on the line of the Texas Steamship company.

The rate applies to first-class freight consisting of machinery, dry goods, books and shoes, groceries, hardware, drugs, etc., provided the shipment to total 20,000 pounds. Since the advantages of the route to the shipper are so obvious, it goes without question that other lines entering El Paso from the east will do something to offset the advantage that the Southwestern and Rock Island have obtained, all of which will redound to the profit of the merchant.

GLOBE OFFICIAL INDICTED BY JURY

Globe isn't as big as Pittsburg by several hundred souls, neither are the city officials of the booming copper city considered likely to emulate the program of graft that was in vogue in the city of smoke a short while ago. However, the Globe papers recently rectified the wrongdoing of the poundmaster of that place and it seems that he is endeavoring to sit "higher up" back again.

The Silver Bell has the following to say regarding the matter: "George A. Feagles, former poundmaster of Globe, was yesterday held to answer to the grand jury on a charge of embezzlement."

"Feagles was arrested several days ago on a warrant sworn out by A. N. Hetherington. Feagles, while acting as poundmaster, had sold a horse and colt belonging to Hetherington and failed to turn the proceeds of the sale, less his commission, into the office of the city clerk. When Hetherington returned to this city and learned of the sale of the animals, he discovered the existing condition of affairs and accordingly, caused Feagles' arrest."

"In court yesterday, it was shown by statements of City Clerk James H. Welch that Feagles had not made a report to the city for several months, and since last October had turned in no money, collected from the sale of impounded animals. "Feagles' only defense was to the effect that he had not turned in the money because he wished to settle the matter personally with Hetherington."

"The complaining witness yesterday filed a demand on the city treasury for \$5, the amount which Feagles failed to turn in. Under this amount is made good by him. It is probable that suit will be filed against his bondsmen, one of whom is S. H. Van Slyke, member of the city council. "Feagles' bond was fixed at \$200 which he will probably not be able to furnish."

BABY IS NAMED IN SHORT ORDER

PHOENIX, May 3.—The habit so prevalent among Americans of calling babies by pet names an neglecting to give the little ones proper names by which they may be known to others in years to come, was the cause of an amusing incident. One of the census enumerators of Phoenix called at the home of a well known family and asked the usual questions in regard to the various members of the family. Everything went through without delay until the entire family, with the exception of the baby, had been properly listed. Then, by way of concluding a duty so far well done, the lady of the house said:

"And now put the baby down. He's the last."

"Yes, Ma'm. The name please?"

"The—the what. Oh, the name! Why, his name is—Now, who is the baby's name, Albert?"

Albert didn't know and it was suggested to the enumerator that he put it down as "the baby," but that arrangement, the young man feared, might not be satisfactory to Uncle Sam.

The telephone was resorted to and the father was communicated with at his place of business.

Blessed if he could remember what name they had bestowed upon the kid. Better ask the girls. They would be sure to know.

The school house was near by, so a little one who was out of school yesterday was sent to confer with the girls. She returned in five minutes with the information that the baby was sometimes called "sweetheart," sometimes "brother" and George all ways called him "Wiggles."

Finally the enumerator suggested that the family Bible might contain the desired information. The mention of the family Bible and the names supposed to be recorded there proved to be an enlightening reminder to the fond mother, and she suddenly remembered that the formality of bestowing upon the baby the honored name of a great ancestor had been forgotten. The child was named.

The father was against communal

care with, and after a hurried conference over the telephone the parents agreed upon the name of William. The name was given its place upon the census rolls and the formal christening will take place in the near future.

FRANK O'BRIEN IS AMONG THE MISSING

PHOENIX, May 3.—Where is Frank J. O'Brien? Rumor has it that the officers of Pima county would like to have this question answered and answered at once. Rumor also has it that the officers were unable to locate Mr. O'Brien up to a late hour last night.

Rumor has more to say. But rumor is not always reliable, and perhaps rumor is unreliable in this case. Who can say?

Nevertheless, rumor has it that Frank O'Brien, lately engaged in the stock brokerage business in Phoenix and Tucson, has been indicted by the Pima county grand jury and is missing. It is a certainty that late last night O'Brien had not been arrested, and if a warrant is out for his arrest, the Pima county authorities certainly refuse to give it out.

The connection of O'Brien with certain funds entrusted to his care by R. D. Hightower, as agent for Dr. William G. Lentz of Phoenix, was the matter which the Pima grand jury was investigating.

Dr. Lentz turned over to Hightower, it is claimed, the money necessary to purchase a certain amount of stock, and although Hightower in turn transmitted the money to O'Brien at his office in Tucson, the stock was never received, either by Hightower or Dr. Lentz, it is alleged.

Dr. Lentz and Hightower recently made the trip to Tucson, where they appeared before the grand jury and told what they knew of the affair, but if the grand jury found a true bill against O'Brien, it has been kept a secret.

WRIGHT WITHDRAWS.

(Douglas International.)

Douglas will have only one applicant for the position of superintendent of the county hospital and poor farm now being constructed near this city. Dr. Wright was an applicant for this position, but recently he withdrew from the contest, leaving Dr. A. E. Adamson as the only Douglas applicant. The board of supervisors will be in regular session today and it may be that the appointment will be made now.

The only other applicant known to be after this position is one from Naco, but the fact of Dr. Adamson's well-known high qualification and the fact of his residence here is believed

FAIR COMMISSION MEETS ON MAY 2

PHOENIX, May 3.—For the first time since the appointment of E. R. Pirtle of Douglas, the fair commission met this morning, with Chairman Hugh Campbell, Treasurer A. L. Moore and Mr. Pirtle all present, to discuss the features of the territorial fair, November 7 to 12.

The board will be in session through tomorrow, and will probably not meet again until after the summer season.

To boost for the next fair and to enjoy the Cinco de Mayo celebration the members of the commission all agreed to go to Tucson and see how the Tucson people entertain the several thousand guests who are expected to be there the latter part of this week.

Approximately \$25,000 will be given by the fair commission for the races fair week. The two Copper stakes, which were such an attractive feature at the last fair will be continued.

Tuesday has been set apart as automobile day, and \$2500 will be given in purses and prizes. Last year the total was but \$1700. The Los Angeles-Phoenix road race will end in Phoenix on Monday, the first day of fair week.

One day in fair week will be made "Phoenix day," and an effort will be made to get every merchant in Phoenix, large or small, and no matter what line of business, to close up in the afternoon of that day. Never in the past have all the stores in Phoenix closed on any one day.

Thus far the commission has decided on but little. They have called this meeting for the purpose of discussing the preliminaries and before they adjourn will have shaped things up for the biggest fair Arizona has yet had.

to be strong points in his favor, and his friends are confident that he will be named by the board as the superintendent of this institution.

Dr. Adamson has been one of the prominent physicians of this city for five or six years and is a man possessing the confidence of all who know him, and his appointment would put the hospital in good hands.

Chamberlain's Stomach and Liver Tablets are safe, sure and reliable, and have been praised by thousands of women who have been restored to health through their gentle and curative properties. Sold by all Druggists.
